NINSON DOBIYAS

FULL STACK DEVELOPER | React.js, Next.js, Node.js, PHP/Laravel

Dubai, UAE | +971 56 904 5230 | ninsond69@gmail.com | Notice period: 30 days

Portfolio: https://ninson-dobiyas.vercel.app/ | GitHub: https://github.com/NinsonD

PROFESSIONAL SUMMARY

Full Stack Developer building responsive websites, e-commerce applications and internal business tools with React.js, Next.js, Node.js/Express.js and PHP/Laravel. Experience includes REST API integration, database-backed workflows, quotation and material-calculation tools, GitHub CI/CD and production deployment support. UAE experience with corporate websites and ERP/POS implementations.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, GSAP

Backend and databases: Node.js, Express.js, PHP, Laravel, REST APIs, JWT, MySQL, MongoDB

Delivery: Git, GitHub, CI/CD, Postman, Linux, Docker, Vercel, Netlify, cPanel, DNS, SSL

PROFESSIONAL EXPERIENCE

Full Stack Developer | Al Namariq IT Solutions

Dubai, UAE | July 2025 - Present

- Develop and maintain corporate and e-commerce websites, including product catalogues, dashboards, cart and checkout workflows, payment integrations and backend services.
- Build responsive interfaces using React.js, Next.js and Tailwind CSS, with GSAP animations for interactive website sections.
- Develop quotation-management and gypsum/material-calculation tools for sales documentation and quantity-estimation workflows.
- Build GitHub CI/CD pipelines and manage hosting, domains, DNS and SSL; troubleshoot releases and production issues.
- Support ERP configuration and restaurant/retail POS deployments, including product/menu setup, hardware connectivity and staff onboarding.

Web Developer Trainee | Edure

April 2024 - March 2025

- Built MERN applications for e-commerce and business-management use cases using React.js, Node.js, Express.js and MongoDB.
- Created REST APIs with JWT authentication for user, product and order workflows; integrated frontend interfaces with backend services.
- Supported debugging, Git-based collaboration and application deployment.

SELECTED PROJECTS

Quotation and material-calculation tools

Develop and maintain tools for quotation preparation and gypsum/material quantity estimates, supporting internal sales and estimation workflows.

Al Namariq Group and ARK Packaging Industries

Developed and maintained responsive corporate websites; work for Al Namariq also includes e-commerce interfaces and shopping workflows.

EDUCATION AND CERTIFICATION

Bachelor of Computer Applications (BCA) | Sreenarayanaguru University | 2021-2024 batch

Certified MERN Stack Developer | Edure | 2025
